

Biz-Trac[®]

Business Identity Theft Protection

*Protecting your business identity,
critical information,
and most privileged assets.*

Effective - Proactive - Essential

What is Biz-Trac[®]?

Biz-Trac is a 24/7 committed business monitoring solution, that identifies adverse changes, conflicts, and inconsistencies, in your business information, and operations, with the Secretary of State.

How Biz-Trac[®] Works?

Monitor

Biz-Trac actively monitors your business information 24/7, and identifies adverse changes, conflicts, and inconsistencies in your business information, UCC-1 filings, and corporate structure.

Detect

Identifies 15 deviated points of legal filings, entity status, and statutory Agent of Process changes that may affect your company operations. Detection includes but not limited to amendment or changes of corporate officers, directors, address location, liens and judgments, which may be the result of, or a precursor to fraudulent activities.

Notify

Immediate Alerts & Notifications are sent by phone, text or email*, to the authorized person(s) registered on the account.

Benefits of Biz-Trac[®]

- Protect against fraudulent business filings
- Alert and notification of change in business records
- Prevents entity hijacking and address mirroring
- Protects your business name, integrity, image, and reputation
- Monitoring of current entity standing and status
- Annual and statutory State renewal notification
- Proactive financial loss mitigation
- Live Reliable Support

If protecting your business name and corporate image is important to you, **Biz-Trac** is your only preferred choice and solution against business identity theft.

Don't Delay. Let Biz-Trac[®] protect your organization from Identity Theft.
